Important notices

- For indoor use in dry environment only.
- DO NOT connect to appliances before the device is added in App.

Reset for AP Setup
When the device is in any condition, press and hold the power (reset) button for 5s until the LED indicator flashes intermittently. DO NOT hold longer than 10s, otherwise it will go to Smart Setup mode.

Reset for Smart Setup
When the device is in any condition, press and hold the power (reset) button for 10s until the LED indicator flashes quickly.
