**Overview**

- LED Indicator
- Power button (Reset button)

**Troubleshooting**

1. I couldn’t get popup landing page, what can I do? After your phone is connected to “BroadLink, WiFi Device” wireless network, open your phone web browser and input the address: “noapp.com”.

2. I couldn’t find home Wi-Fi network in landing page, what can I do? You may not have 2.4GHz Wi-Fi network in your home. Check the Wi-Fi settings from your router manufacturer.

3. I couldn’t get verification code by email, what can I do? Check your spam in email. If you are using email client, please try to check your email on webpage.
