Troubleshooting

1. I couldn’t get popup landing page, what can I do?
   After your phone is connected to BroadLink, Wi-Fi Device wireless network, open your phone’s web browser and input the address: “noapp.com”.

2. I couldn’t find home Wi-Fi network in landing page, what can I do?
   You may not have 2.4GHz Wi-Fi network in your home. Check the Wi-Fi settings from your router manufactures.

3. I couldn’t get verification code by email, what can I do?
   Check your spam in email, if you are using Gmail client, please try to check your email on webpage.

Important notices

- For indoor use in dry environment only.
- DO NOT connect to appliances before the device is added in App.
